Bob

EPA's cover letter and comments on the LWGs 7/1/2011 Draft Final Baseline Ecological Risk Assessment (BERA) are attached. Please note that EPA is requesting a response to comments, rather than resubmittal of the BERA at this time. As noted in the letter we expect to follow-up with directed changes to the document but will consider the LWG's response to these comments, assuming that the LWG's response is timely.

Please let us know if you have any questions.

thanks

Chip Humphrey
